How to Navigate Traveling this Thanksgiving

Travel restrictions in many places remain in flux, so before you go, know the requirements and recommendations of your specific destination. Also, masks are still required for everyone on planes, buses, trains, and other forms of public transportation traveling into, within, or out of the United States and places such as airports and stations.

Air Travel

- Tuesday is the most expensive and heaviest travel day with Monday being the lightest and least expensive. Those wanting to book last minute travel will find the best fares about two weeks prior to Thanksgiving but keep in mind availability may be limited.

- For domestic travel, arrive at the airport 2 hours ahead of departure time and for international, arrive 3 hours ahead.

- Domestic and international travel restrictions and recommendations vary. Visit the CDC for the latest on proof of vaccination, testing requirements and other information you need to know before you go.

Road Travel

- Wednesday afternoon will be the heaviest travel day with major metro areas seeing peak congestion from 1:30pm–6:00pm. The best time to leave is before noon the day before or even the day of Thanksgiving.

- Get a vehicle inspection to check key components, especially if your vehicle has been sitting for an extended period of time.

Economic factors influencing the travel forecast include the following:

- Continued improvements in personal income will drive year-over-year growth in consumer spending in the fourth quarter of 2021, up 11.9%.

- The unemployment rate has fallen to 4.6% from 6.8% a year ago but remains above the fourth quarter 2019 average of 3.6%.

- Concerns about the delta variant of the coronavirus have slowed the rebounds in consumer sentiment and spending, with consumer sentiment falling dramatically over the summer.

- Average October gas prices have increased more than a dollar from 2020, with prices not seen this high since 2014.

About AAA

AAA provides more than 62 million members with automotive, travel, insurance and financial services through its federation of 30 motor clubs and nearly 1,000 branch offices across North America. Since 1902, the not-for-profit, fully tax-paying AAA has been a leader and advocate for safe mobility. Drivers can request roadside assistance, identify nearby gas prices, locate discounts, book a hotel or map a route via the AAA Mobile app. To join, visit AAA.com.
